**MEDIA RELEASE**

**Bringing Bore 3 Online**

Coonamble Shire Council advises residents that works will be undertaken today, Wednesday 4 February 2026, to bring Bore 3 online.

Due to the bore being free-flowing, there will be a temporary discharge of water at the site while the pump is fitted into the casing. As a result, residents may notice water flowing in the gutters in the vicinity of the Coonamble Visitor Information and Exhibition Centre during this process.

Council thanks the community for their understanding while these essential works are carried out to support the town's water supply.

For any questions or to report a water leak in town, please contact Council on (02) 6827 1900
